# Dusmess Notices.

IMPORTANT FACTS .- Constant writing for

by the use of the Gold Pen.

The Gold Pen is always reedy and reliable, while the Steel Yes must be often condensed and a new one selected; there-fore there is great assing of time in the use of the Gold Pen. Gold is expable of receiving any degree of elasticity, so that Cold is expable of receiving any degree of clasticity, so that the Gold Pen is existly adapted to the hand of the writer; therefore, the nerves of the hand and arm are not injured, as is known to be the case by the use of Steel Pens.

"The f'en is m'untier than the Sword," in snother
